EDUCATION

Galgotias University, Greater Noida, UP
B.Tech in Computer Science Engineering

Aug 2023 - May 2026

Galgotias University, Greater Noida, UP
Diploma in Computer Science Engineering

Jun 2020 - May 2023

SKILLS SUMMARY

Languages:	Java, JavaScript, Python, SQL, C#
Frontend:	React.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, .NET, ASP.NET Core, REST APIs
Databases:	PostgreSQL, MySQL, MongoDB
Tools:	Git, GitHub, Postman, AWS
Core Concepts:	Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks, JWT Authentication, RBAC

WORK EXPERIENCE

FULL STACK DEVELOPER | **KREMLIN GROUPS (OPC) PRIVATE LIMITED**

March 2026 - Present

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed responsive and user-friendly interfaces using HTML, CSS, JavaScript, and Tailwind CSS.
- Built RESTful APIs, implemented JWT authentication, and integrated frontend and backend services.
- Optimized application performance, resolved bugs, and improved scalability and maintainability.

WEB DEVELOPER INTERN | **KIA NETWORKS**

November 2025 - January 2026

- Built responsive web applications using React.js, JavaScript, HTML, and CSS.
- Integrated frontend interfaces with backend APIs to enable seamless data communication.
- Enhanced application performance by optimizing components and reducing page load times.
- Collaborated with developers using Git and GitHub to manage code and track project progress.

AI/ML VIRTUAL INTERN | **AICTE VIRTUAL INTERNSHIP**

January 2025 - March 2025

- Developed and trained machine learning models for data analysis and prediction tasks using Python.
- Performed data preprocessing, feature engineering, and model evaluation with NumPy, Pandas, Scikit-learn, and TensorFlow.
- Implemented classification and regression algorithms and analyzed performance using accuracy, precision, recall, and F1-score.

ANDROID DEVELOPER INTERN | **AICTE VIRTUAL INTERNSHIP**

October 2024 - December 2024

- Developed Android application features using Java and Android Studio; created reusable UI layouts.
- Integrated REST APIs and implemented user authentication and input validation for security and reliability.
- Used Git and GitHub for version control; participated in code reviews and debugging sessions.

PROJECTS

NetMind AI

[Live Demo](#)

Developed an AI-powered Network Operations Center (NOC) platform for automated network monitoring and troubleshooting. Implemented syslog analysis and event correlation to detect network failures, packet loss, and connectivity issues. Integrated Gemini

AI and RAG for root-cause analysis and AI-generated remediation recommendations, with interactive topology visualization.

Technologies: React, TypeScript, FastAPI, Python, MongoDB, Gemini AI, RAG

JobPilot AI

[Live Demo](#)

Built an AI-powered career assistant automating job discovery, resume optimization, and interview preparation. Developed ATS scoring and resume analysis modules; implemented AI-driven job recommendations and mock interview generation.

Technologies: Next.js, React.js, Tailwind CSS, Gemini AI, JavaScript

Jordan Shoes E-Commerce

[Live Demo](#)

Developed a modern e-commerce platform with responsive product catalogs, detail pages, search, filtering, and category navigation.

Technologies: React.js, Tailwind CSS, JavaScript, HTML5, CSS3

CERTIFICATIONS

**Generative AI with LangChain and Hugging Face | Certified DevOps Engineer | AWS Educate: Intro to Generative AI
AWS Educate: Machine Learning Foundations | AWS Educate: Introduction to Cloud 101 | CCNA Cyber Ops**
